In this course participants will explore the impact of domestic abuse on victims, witnesses, families and the community as a whole. Participants will value and grasp the complexities of this crime, including types of abuse, individuals' reaction to the experiences of domestic abuse, the factors which affect those reactions, and the challenges of reporting to the police.

A domestic abuse victim's journey through the Criminal Justice System will be examined, key legislation discussed on the rights of victims and witnesses of domestic abuse. The course includes a brief discussion of civil measures that may be necessary to protect the safety of the victim and family.

**\* Bespoke course or presentation for groups available on request**
