

Develop your knowledge and skills at our

IMPACT OF CRIME

TRAINING COURSE

This course gives you the information to recognise and understand how people's lives are affected by crime and how best to communicate and engage effectively with a victim or a witness. This interactive course provides you with practical scenarios and situations to consider the challenges of the criminal justice system. Participants will learn best practice to respond sensitively to the needs of people affected by crime.

£75 per delegate (£60 students)*

CPD Certificates & Lunch included

10 Bothwell Street, Glasgow, G2 6LU

The Impact of Crime training course identifies the physical, social, emotional & financial effects of crime and analyses factors that contribute to an individual's recovery.

Participants will gain an awareness of the ripple effect of crime and how it can affect family, friends and communities.

The course summarises the key stages of the victim's journey through the Criminal Justice System and provides insight on the challenges experienced.

Participants will learn to identify the different elements of effective communication, how to identify and overcome potential communication barriers. You will then use your new skills to demonstrate good practice when conveying information sensitively to people affected crime.

*** Bespoke course or presentation for groups available on request**
